

Questions on Printing Documents in Angel -

Q1. When trying to Print a Word document nothing prints and the screen freezes?

- Look for a warning sign that your machine needs an Active X file to be downloaded. This will look like a yellow task bar on the top of your screen
- Right Click on the warning sign to Download the Active X
- This action will take you back to the course Home Page
- Navigate back to your Lessons folder and to the File to be Printed

Q2. How do I print a Word document?

- Right Click on the document and Save the document on the Desktop and then send it to the Printer

Q3 How do I print an Adobe Acrobat (pdf) document?

- Click on the "pdf" document and use the Print Icon to print
